How to Use Fall Leaves

The first step is to rake up those leaves. Or, if you have a big yard, a leaf blower is an easy solution. Today, there are [lightweight and low-noise leaf blowers](#) that do the job quickly (without breaking your back!).

- **Spread them as protective [mulch](#).**
- **Use them as a weed barrier for spring plantings.**
- **Make [compost](#) for a valuable soil amendment.**
- **Make leaf mold.**
- **Move back over the leaves a few times.**
- **Store root vegetables**
- **Make a playground.**
- **There's no end to crafts that use fall leaves.** My favorite: preserving the rich fall colors by "[glycerinizing](#)" a few stems of the most colorful maples.

See our [Autumnal Equinox](#) page for more fall-themed advice, folklore, and fun!

Introducing Speakers (Toastmasters Intl)

If you host a special event, you may be required to introduce speakers. Try these quick tips for delivering thoughtful speaker introductions:

- **Don't steal the show** by making the introduction too long (60 seconds or less is sufficient), or by speaking on a topic that is in no way related to the speaker.
- **Grab the audience's attention** with a great opening. This can be an inspiring quote, a humorous anecdote, or an impressive milestone the speaker has achieved.
- **Briefly mention the topic** the speaker is addressing, but don't reveal too much about his or her speech.
- **Establish the speaker's authority and expertise.** This information will help solidify with the audience the speaker's credibility as a subject matter expert.
